Spring 2008 Issue

Did You Know!

Did you know that the photograph on a driving licence needs to be updated every 10 years.

Photocard driving licences were first issued in July 1998 and therefore the photographs on the first licences issued are due to expire July 2008. It is a mandatory requirement under UK law to renew the photograph and failure to comply may result in a £1000 fine. To raise awareness the DVLA will be issuing reminders, further information can be found on the DVLA website at www.dvla.gov.uk

Beat the credit crunch!!!

Not since the mid 1990's has the UK felt the pain of the credit crunch like it is at the moment.

With the economy apparently getting tighter and money from loan companies becoming less available and more costly to borrow there could not be a better time to lease or contract hire your vehicle.

By funding your vehicle this way you are not using up your savings to purchase a vehicle, benefiting from lower monthly costs and knowing that you will not lose money when it comes to disposing of your vehicle.

All in all whether you are a business or a consumer you are in a win win situation.

Our offers at the moment for both vans and cars run from as little as £99+Vat per month, a selection of our 10 best selling offers are on the back of this newsletter or a more comprehensive selection can be found on our website www.abc-leasing.com.

So not only do you benefit from low monthly payments but you also benefit from a low initial payment (usually the equivalent of three monthly payments) and also get the vehicle delivered to your door totally free of charge in mainland UK, yes it really is....

...as easy as **ABC**

Don't Eat and Drive

Research by Brake and Green Flag reveals that one in seven people who drive for work eat a meal at least once a week while driving. The research suggests that a task such as eating a bag of crisps while driving slows down reaction times by 29 per cent.
